

Moses Njehu, Software Developer

Nairobi, Kenya. moses.njehu.n@gmail.com

PROFESSIONAL SUMMARY

Software Engineer with experience in development and maintaining applications with focus in reliability and scalability. Fascinated with learning and development of life changing solutions.

EMPLOYMENT HISTORY

Software Developer, Tion Precision Electronics

April, 2023 – Present

Tasked with the development of an ERP system that is multi-tenant and modular with installable applications relative to subscription packages. I was also tasked with developing hardware to software integrations, payments integrations and third-party integrations the most prominent being transmission of weighing scale data to a web application via WIFI on real-time basis.

Junior Software Developer, VertexHub Group Limited

January, 2022- November 2022

I was tasked with developing and maintaining a payment processing Service application built on Laravel as frontend and NestJS as backend. The day-to-day activities involved:

- Adding modules, integrations to payment platforms and documenting API's.
- Deploying service updates and upgrades on a Linux server.
- PostgreSQL database administration.
- Minor Server management and configuration tasks.

Intern Software Developer, VertexHub Group Limited

October, 2021 - December, 2021

- Development of an E-Commerce platform using Magento CMS.
- S.E.O optimization for the E-Commerce site.
- Website development.
- Computer maintenance(Troubleshooting and repair)

EDUCATION

Chuka University, BSc. Applied Computer Science

Sep, 2017 - Oct, 2021
